

Bird Banding Demonstration

Saturday, September 9th

Local banding and birding experts will be on hand to answer your questions and show you the methods used for banding songbirds. This is a great chance to see our local birds up close and understand the science behind banding birds. A fascinating program for sure!

Meet at the Reserve's Classroom at 8:30am (if you're already on-island) and stay for as much or as little time as you like! The banding site will be determined the night before the program, so we may be driving to the actual banding location.

Please note if you are joining us from off-island, you will take the 730am ferry from Bristol and return on the 230pm ferry.

For full details on this program, please visit Audubon Society of RI's online calendar at www.asri.org.

Registration is required and can be done through the Audubon Society of RI's website or by calling 401.949.5454. Cost: Audubon Society of RI Member \$8/adult, \$4/member child; \$12/non-member adult, \$8/non-member child.
