

August 9-12, 2022

Narragansett Bay National Estuarine Research Reserve on Prudence Island, RI

Immerse yourself in the beautiful setting of the Narragansett Bay Research Reserve to learn and witness first-hand the impacts of climate change and rising sea levels on salt marshes. Hear about current research and monitoring projects directly from our scientists and return to your classroom with local data to share this story with your students. This workshop content is designed for middle and high school science teachers. Participants will be given \$500 to use towards outdoor learning and/or stewardship projects with their students.

- Explore coastal habitats and conduct field investigations
- Meet Reserve scientists
- Bring local and national data into your classroom
- Learn how to guide student investigations
- Aligned with NGSS frameworks

Workshop is FREE, including shared dorm-style lodging (or bring a tent and camp!) and meals on Prudence Island. To ensure everyone's safety, all participants must be fully vaccinated to participate.

Register now as space is limited to 10 educators. Contact Maureen Dewire, Education Coordinator, at maureen.dewire@dem.ri.gov or call 401.683.1478 with any questions and to register.

Teachers on the Estuary (TOTE) is a program of the National Estuarine Research Reserve System.
